speak Finnish!

# TAKE PART IN OUR ACTIVITIES FOR CHILDREN AND YOUTH

## ACTIVITIES FOR HARD OF HEARING PEOPLE OF VARIOUS AGES

Peer support - the possibility to meet other people with hearing loss and to share experiences with them is an important part of the Finnish Hearing Association's child and youth activities. The events include fun activities as well as the opportunity to talk about hearing loss and to receive information about hearing aids and studying with hearing loss.

Our activities are open for all hard of hearing persons, regardless of the level of hearing or the type of hearing aids used. Some of our activities also allow friends and siblings without hearing loss to participate.

Finnish Hearing Association arranges summer camps and other peer events for children and youths across Finland.

The youth committee of the Association arranges activities for people with hearing loss aged 18–35. You can find them on social media with the name Moottorikorvat (Motor Ears).

You can find the experts of Finnish Hearing Association working with children and youth from our website and contact them directly. You can also contact us via our telephone helpline or info email address.
